Product Information

Description

This chair has a pixelated seat and back that is textile-covered on the chair's front side. This construction provides support and comfort by spontaneously conforming to the user's shape and postural movements, while simultaneously moving heat away from the body. The Instinctive Back design mimics the human spine, providing passive support to the sacral, lumbar, and thoracic regions of the user's back, while the frameless, narrow back shape allows freedom of movement through the arms, neck and shoulders. The seat depth adjusts from 15" to 18". The tilt supports the thoracic spine and stabilizes the pelvis through the deep, balanced recline. The tilt limiter allows the user to limit the amount of recline. The chair has a 5-star base and low-, standard-, or extended-height range options.

Arm choices include no arms or fully adjustable arms that adjust 6" vertically and 6" horizontally.

Textile on chair's front side is replaceable.

Chair does not meet CAL133 requirements for fire-retardancy.

Notes

For chairs with 3512 or 3513 textile color and graphite (G1) frame finish, the back mat will be graphite. For all other options, the back mat is translucent.

Chair is tested and warranted for use by persons 300 pounds and under.

For information on casters, see Casters and Glides in Appendices.

Customer's Own Material (COM) and Customer's Own Leather (COL) are not available on this chair.
